- Taking** a personal approach to pulp and paper safety. H. Lynch. 6:50.
- Book Review: The Blame Machine.** J.M. Elson. 7:58.
- Shiftwork: Safety and the biological clock.** H. Lynch. 8:10.
- People are falling - statistics are not.** C. Hunter. 9:50.
- Common threads of effective primary and secondary prevention services.** F. Puchalski. 10:58.
- Safest Mill in Canada Contest: Update.** J. Little. 11:54.
- Productive safety management by Tania Mol.** J. Little. 12:106.
- SAFETY.** The discipline of Process Safety Management and how it's relevant to the pulp and paper industry. R.T. Boughner. (T224) 10:29.
- SAWDUST.** Polysulphide for yield enhancement in sawdust pulping: Does it work? C. Luthie et al. (T1) 1:32.
- SCALING** and bleaching chemicals consumption: A mill case. P.A. Barata et al. (T71) 3:47.
- SCREENS.** Increased screening efficiency with belt dilution. B. Fredriksson. (T256) 11:38.
- SCREW** press dewatering of aspen kraft pulps: A re-examination. D.W. Francis et al. (T220) 10:25.
- SHIFTWORK:** Safety and the biological clock. H. Lynch. 8:10.
- STOCK CHESTS.** Dynamic mixing in agitated industrial pulp chests. F. Eim-Mozaffari et al. (T118) 5:41.
- STORAGE.** Chlorine dioxide storage: Spill containment, neutralization and vapour suppression. G. Ferweda. (T289) 12:63.
- SUPPLIER SOLUTIONS.** Supporting the membership. J.M. Elson. 3:10.
- Wet end rebuild solutions.** F. Swietlik. 7:19.
- Yankee dryer a bottleneck? Shoe calendar the answer.** M. Swayne. 8:18.
- E-learning for millwrights.** G. Lajoie. 9:20.
- Case Study: Synthetic gear oil at Papier Masson.** Special Report to PPC. 10:19.
- Metso leaders talk about the industry.** A. Orzechowska. 12:17.
- SUPPORTING** the membership. J.M. Elson. 3:10.
- SURVEY** of top-former operation and performance. J. Jong et al. (T187) 8:33.
- SYSTEM** closure in an integrated newsprint mill, practical application of the genetic algorithm. S. Shafiei et al. (T146) 6:40.
- SYSTEMATIC** changes in paper properties caused by fines. J. Sirviö et al. (T193) 8:39.
- T**
- TAKING** a personal approach to pulp and paper safety. H. Lynch. 6:50.
- TEAMWORK.** Why two heads aren't always better than one. H. Lynch. 12:31.
- TECHNO-economic** evaluation of emerging sludge management options at a newsprint mill with activated sludge treatment. J. Laflamme-Mayer, et al. (T157) 7:33.
- TECHNOLOGY** Strategy: A new arena to lock in competitiveness. A.R. Procter. 9:49.
- TEMPERATURE.** Good bonding for low-energy HT-CTMP by press drying. T. Pynnönen et al. (T57) 3:33.
- THE EFFECT** of zeolite on value-added paper manufacturing. E. Loranger et al. (T53) 3:29.
- THE FIBER Accelerator:** A new device for energy recovery in TMP and CTMP plants. K.G. Ryrberg et al. (T26) 2:24.
- THE MAN BEHIND THE MILL:** Tom Boughner of Pope & Talbot's Mackenzie Pulp Operations. Z. Pataklavi. 2:22.
- THE OFFICIAL** inauguration of Kruger Waygamack's reliance 2002. Special Report to PPC. 11:10.
- THE RUSSIAN** Bear Awakens. P.J. Greenbaum. 4:10.
- THE SEARCH** for purity. A. Orzechowska. 6:18.
- THE university** of British Columbia - Pulp & Paper Centre benefits from NorskeCanada grant. 3:25.
- THE Unknown Unknowns.** A.R. Procter. 5:57.
- THE VALUE** of the Sales Tech Rep. D. Davies. 6:48.
- THUNDER BAY:** Industry outlook and realities. A. Orzechowska. 11:18.
- TIP-TOP** production needs top-notch maintenance. C. McCormick. 7:10.
- TISSUE.** Good as Gold Hong Ye. M. Swayne. 10:10.
- TMP REFINING.** Irreversible long fibre collapse at high temperature TMP reject refining - initial studies. S. Norgren et al. (T170) 7:47.
- TOP** award for higher education interaction. Special Report to PPC. 11:26.
- TRAINING & EDUCATION.** Working smarter, not harder. P.J. Greenbaum. 9:16.
- TRANSPORT.** New technology for CPR's boxcars. Special to Pulp & Paper Canada. 3:21.
- New trucking regulations:** cost increase, driver decrease. A. Orzechowska. 3:23.
- TRIANGULATION** for process control performance. L. Estévez-Reyes. (T36) 2:34.
- U**
- UNDERSTANDING** the fiber development during co-refining of white birch and black spruce
- mistures. Part I: Chemithermomechanical pulping. M.R. Wu et al. (T289) 12:83.
- UNDERSTANDING** the fiber development during co-refining of white birch and black spruce mixtures. Part 2: Thermomechanical pulping. M.R. Wu et al. (T294) 12:88.
- USE** of secondary condensates from black liquor evaporation as process water in Do bleaching. M. Sankari et al. (T113) 5:36.
- USE** of xylanase in the production of bleached, unrefined pulp at Marathon Pulp Inc. J.S. Tolan et al. (T167) 7:44.
- V**
- VALVES:** Valve diagnostics help avoid downtime in TMP mill. S. Sullivan et al. 1:29.
- VIRTUAL** Communications: Speech and writing are finding new dimensions. A.R. Procter. 3:57.
- W**
- WATER MANAGEMENT.** Consequences of increasing effluent concentration on secondary treatment performance. A. Elliott et al. (T161) 7:38.
- WAVELET** packet analysis of paper machine data for control assessment and trim loss optimization. X.J. Jiao et al. (T207) 9:34.
- WET** end rebuild solutions. F. Swietlik. 7:19.
- WET END.** Compact wet end systems for superior papermaking. J.L. Catts. (T83) 4:28.
- WHAT** about wireless? D. Davies. 12:105.
- WHY** two heads aren't always better than one. H. Lynch. 12:31.
- WOOD RESIN.** Screw press dewatering of aspen kraft pulps: A re-examination. D.W. Francis et al. (T220) 10:25.
- WORKING** remotely. D. Davies. 7:18.
- WORKING** smarter, not harder. P.J. Greenbaum. 9:26.
- X**
- XYLANASE.** Multiples avantages du xylanase dans une usine Nexor. Papiers Fraser de pâte kraft de feuillus, à Thurso, Québec. C. Popovici et al. (T278) 12:72.
- Y**
- YANKEE** dryer a bottleneck? Shoe calendar the answer. M. Swayne. 8:18.
- YOUNG Worker Safety - Your Responsibility.** P. Andre. 5:58.
- Z**
